UNIFORM CRIME REPORT

John F. Kehoe, Jr.
Commissioner

QUARTERLY CRIME INDEX

JANUARY - MARCH 1977

PUBLISHED BY THE MASSACHUSETTS DEPARTMENT OF PUBLIC SAFETY
PUBLICATION NUMBER 9649-1000-9-4-77
APPROVED BY ALFRED C. HOLLAND, STATE PURCHASING AGENT

S P E C I A L N O T E

Comparison statistics relating to the increase and/or decrease in the Crime Index are not available at this time (percentages + or -) due to the fact that the Massachusetts Crime Reporting Program began in January, 1977. It is the opinion of the Crime Reporting Unit that attempting to compare the available 1976 crime statistics to the current 1977 crime statistics would not set forth an accurate percentage comparison due to the lack of sufficient quality control measures for the 1976 statistics; therefore, no comparison has been made of the 1976-1977 quarterly statistics. Comparisons will be available for the 1977-1978 periods after the Crime Reporting Unit has established the crime data base and will be released through this type of medium. Inasmuch as accurate crime statistics were available for cities in the Commonwealth over 100,000 in population for the years 1975-76, an annual comparison has been made based on the Federal Bureau of Investigation's Preliminary Annual Release dated March 30, 1977 for these cities and is set forth on the last two pages (pink) of this report.

MASSACHUSETTS UNIFORM CRIME REPORTING PROGRAM

STATISTICAL REPORT - QUARTERLY CRIME INDEX

JANUARY-MARCH 1977

The Massachusetts Uniform Crime Reporting Program is centered around 358 local and state law enforcement agencies who submit monthly reports to the Crime Reporting Unit, Department of Public Safety.

The data presented in this report are offenses known to law enforcement agencies and represent a portion of those offenses that have actually occurred. An increase in the Uniform Crime Reports may indicate an increase due to improved detecting or reporting of crime, in addition to an actual increase of offenses.

Individuals using these TOTAL VOLUME tabulations are cautioned against drawing conclusions by making direct comparisons between cities and towns due to the existence of numerous factors which affect the amount and type of crime from place to place. It is important to remember that crime is a social problem and therefore, a concern of the entire community. The efforts of law enforcement personnel are limited to factors within their control.

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

- *Density and size of the community population and the metropolitan area of which it is a part.*
- *Composition of the population with reference particularly to age, sex and race.*
- *Economic status of the population.*
- *Relative stability of population, including commuters, seasonal and other transient types.*
- *Climate, including seasonal weather conditions.*
- *Educational, recreational and religious characteristics.*
- *Attitude of the public toward law enforcement problems.*

MASSACHUSETTS UNIFORM CRIME REPORTING PROGRAM

SUPPLEMENTARY INFORMATION

FOR PERIOD: JANUARY - MARCH 1977 - STATE TOTALS

• TOTAL NUMBER OF CRIME INDEX OFFENSES REPORTED:	61,438
• TOTAL NUMBER OF AUTOMOBILES STOLEN:	13,181
• TOTAL NUMBER OF HOMICIDES (1a.):	44
• TOTAL NUMBER OF POLICE OFFICERS ASSAULTED:	401
A. WITH INJURY	156
B. WITHOUT INJURY	245
• TOTAL NUMBER OF POLICE OFFICERS KILLED	1

==========

HOMICIDE SUMMARY: (COMMONWEALTH OF MASSACHUSETTS - JAN - MARCH 1977)

• BREAKDOWN:	
A. 1a. - HOMICIDE & NONNEGLIGENT MANSLAUGHTER	44
B. 1b. - MANSLAUGHTER BY NEGLIGENCE	12
C. NUMBER OF 1a. HOMICIDES = 'JUSTIFIABLE'	3

• TYPE OF WEAPON USED:	
A. HANDGUN	15
B. RIFLE, SHOTGUN	8
C. KNIFE	12
D. HANDS, FIST, FEET	4
E. OTHER DANG. WEAP.	5

• HOMICIDE SITUATIONS:	
A. NUMBER OF HOMICIDES COMMITTED IN DOMESTIC SITUATIONS:	17
B. NUMBER OF HOMICIDES COMMITTED INVOLVING CRIMINAL ACTS:	24

O F F E N S E S K N O W N T O T H E P O L I C E - 1 9 7 5 and 1 9 7 6

The following report is based on the Federal Bureau of Investigation's Uniform Crime Report, Preliminary Annual Release, dated March 30, 1977, which indicates ONLY Crime Index statistics for the six cities in the Commonwealth of Massachusetts over 100,000 in population.

COMBINED TOTALS - CITIES OVER 100,000 IN POPULATION - INDEX CRIME TRENDS FOR THE CITIES OF:

********** BOSTON
NEW BEDFORD
CAMBRIDGE
SPRINGFIELD
FALL RIVER
WORCESTER
****

OFFENSE	1 9 7 5	1 9 7 6	PERCENT CHANGE (%) + or -
Homicide & Nonnegligent Mnsltr.	147	113	-23.1%
Forcible Rape	602	546	- 9.3%
Robbery	9,833	7,655	-22.1%
Aggravated Assault	5,334	5,364	+ 0.6%
Burglary	35,738	32,387	- 9.4%
Larceny-Theft	40,349	42,857	+ 6.2%
Motor Vehicle Theft	44,752	38,048	-15.0%
VIOLENT CRIME	15,916	13,678	-14.1%
NONVIOLENT CRIME	120,839	113,292	- 6.2%
T O T A L	136,755	126,970	- 7.2%

Note: The overall crime picture was influenced by a large volume of Larceny-Thefts coming from thefts of property from automobiles, stolen automobile parts and accessories.

QUARTERLY CRIME INDEX
APRIL - JUNE 1977

PUBLISHED BY THE MASSACHUSETTS DEPARTMENT OF PUBLIC SAFETY
PUBLICATION NUMBER 9649-1500-9-4-77
APPROVED BY ALFRED C. HOLLAND, STATE PURCHASING AGENT

JOHN F. KEHOE, JR.
COMMISSIONER OF PUBLIC SAFETY

The Commonwealth of Massachusetts

Department of Public Safety

1010 Commonwealth Avenue, Boston

August 15, 1977

This volume, The Massachusetts Quarterly Uniform Crime Report, April 1, 1977 through June 30, 1977, has been developed by the Department of Public Safety and is presented for the benefit of all concerned and involved with the progress and problems of law enforcement and criminal justice in our Commonwealth. I am certain that legislators, criminal justice administrators, local officials in government, academic researchers and the interested public will find it of unique value.

This report is hereby submitted to the Governor, the Legislature, the Secretary of Public Safety and all law enforcement agencies. The data reflected in this report was developed from periodic monthly reports submitted to the Massachusetts Crime Reporting Unit, Department of Public Safety, concerning criminal activities in the State. This data was then verified for accuracy and completeness to insure the most comprehensive picture of criminal activity in the municipal and county jurisdictions in Massachusetts, thereby, reflecting the state-wide scope of criminal activity.

I would like to compliment the diligent professional efforts of Massachusetts' law enforcement agencies involved in the Uniform Crime Reporting Program that enables this document to achieve its intended results.

The Massachusetts Uniform Crime Reporting Program is in its first year of operation and is well on its way to becoming a very successful statistical analysis system. The Department feels that the significance of this and future editions of the Uniform Crime Report is that it will provide the Commonwealth of Massachusetts with a comprehensive statistical program. This will be utilized to assess criminal activities and allow us to effectively combat the problems of crime in Massachusetts.

Sincerely,

John F. Kehoe, Jr.
Commissioner

The Commonwealth of Massachusetts

Department of Public Safety

John F. Kehoe, Jr.

UNIFORM CRIME REPORT

NEWS RELEASE

THE MASSACHUSETTS CRIME REPORTING UNIT, DEPARTMENT OF PUBLIC SAFETY, ANNOUNCED IN IT'S SEMI-ANNUAL UNIFORM CRIME REPORT TODAY THAT 137,978 CRIME INDEX OFFENSES WERE REPORTED OR MADE KNOWN TO MASSACHUSETTS LAW ENFORCEMENT AGENCIES DURING THE JANUARY - JUNE, 1977, PERIOD. THE CRIME INDEX IS MADE UP OF WHAT IS CONSIDERED BY THE INTERNATIONAL ASSOCIATION OF CHIEFS OF POLICE TO BE THE MOST SERIOUS CRIMINAL OFFENSES AND IS BROKEN DOWN INTO SEVEN (7) CATEGORIES: MURDER AND NONNEGLIGENT MANSLAUGHTER, FORCIBLE RAPE, ROBBERY, AGGRAVATED ASSAULT, BURGLARY, LARCENY-THEFT AND MOTOR VEHICLE THEFT.

ACCORDING TO MRS. RITA M. MILLS, SENIOR METHODS AND SYSTEMS ANALYST OF THE CRIME REPORTING UNIT, IN ORDER FOR A CRIME TO BE CONSIDERED A PART I OR CRIME INDEX OFFENSE IT MUST MEET THREE BASIC REQUIREMENTS: 1) THE CRIME MUST BE A SERIOUS OFFENSE, 2) IT MUST BE ONE WHICH IS COMMITTED FREQUENTLY AND 3) ITS CHANCES OF BEING REPORTED TO LAW ENFORCEMENT OFFICIALS ARE VERY LIKELY. SINCE 1930 THE CRIME INDEX HAS BEEN USED BY THE CRIMINAL JUSTICE COMMUNITY, NATIONWIDE, AS A "BAROMETER" OR "YARDSTICK" FOR MEASURING CRIME TO BETTER INFORM LAW ENFORCEMENT ADMINISTRATORS OF THE FREQUENCY, EXTENT AND NATURE OF THE CRIME PROBLEM.

THE CRIME REPORTING UNIT ALSO ANNOUNCED IN IT'S SEMI-ANNUAL CRIME REPORT THAT SERIOUS CRIMES REPORTED IN THE SIX LARGEST CITIES IN THE COMMONWEALTH DECREASED 18.1% OVERALL DURING THE FIRST SIX MONTHS OF 1977 WHEN COMPARED WITH THE SAME REPORTING PERIOD OF 1976. THE 18.1% DECREASE IN THE CRIME INDEX WAS COMPILED AFTER ANALYSIS OF CRIME REPORTS SUBMITTED TO THE CRU FROM BOSTON, CAMBRIDGE, FALL RIVER, NEW BEDFORD, SPRINGFIELD AND WORCESTER OVER THE JANUARY-JUNE, 1977, REPORTING PERIOD. CONSIDERING THE SIX LARGEST CITIES AS A WHOLE, THE JANUARY THROUGH JUNE, 1977, REPORT SHOWED A TOTAL OF 62,536 SERIOUS CRIMES REPORTED TO POLICE IN 1976 AND 51,238 SERIOUS CRIMES REPORTED IN 1977. THESE TWO TOTAL FIGURES ACCOUNTED FOR THE 18.1% DECREASE IN THE CRIME INDEX. THE SEVEN INDEX CRIMES FOR THE 6 MONTH PERIOD BROKE DOWN INTO THE FOLLOWING PERCENTAGES:

MURDER -16.4 FORCIBLE RAPE +11.2 ROBBERY -15.1

AGGRAVATED ASSAULT +1.2 BURGLARY (BREAKING AND ENTERING) -25.7

LARCENY-THEFT -13.2 MOTOR VEHICLE THEFT -20.1

A FURTHER ANALYSIS OF THE 1977 CRIME STATISTICS FOR THE SIX MASSACHUSETTS CITIES OVER 100,000 IN POPULATION REVEALED THAT VIOLENT CRIME FELL -7.7% AND NONVIOLENT (PROPERTY) CRIME WAS DOWN -19.3% WHEN COMPARED TO 1976 CRIME STATISTICS.

OF THE 137,978 (STATE TOTAL) CRIME INDEX OFFENSES REPORTED TO THE CRIME REPORTING UNIT BY 376 LOCAL AND STATE LAW ENFORCEMENT AGENCIES, 10,915 OR 7.9% WERE CRIMES OF VIOLENCE (HOMICIDE, FORCIBLE RAPE, AGG-RAVATED ASSAULT AND ROBBERY) AND 127,063 OR 92.1% WERE PROPERTY CRIMES (BURGLARY, LARCENY-THEFT AND MOTOR VEHICLE THEFT). EIGHTY-NINE (89) HOMICIDES OCCURRED IN THE COMMONWEALTH DURING THE FIRST SIX MONTHS OF 1977. THE OTHER SIX INDEX OFFENSES BROKE DOWN INTO THE FOLLOWING VOL-UME AND PERCENTAGE FIGURES:

CRIME	TOTAL INDEX NUMBER	% OF TOTAL
FORCIBLE RAPE	538	.4%
ROBBERY	4,491	3.3%
AGGRAVATED ASSAULT	5,797	4.2%
BURGLARY	38,603	28.0%
LARCENY-THEFT	58,675	42.5%
MOTOR VEHICLE THEFT	29,785	21.6%

THE MASSACHUSETTS "CRIME CLOCK AVERAGE", BASED ON THE UNIFORM CRIME REPORTS FOR THE JANUARY - JUNE, 1977, PERIOD REVEALS ONE (1) HOMICIDE WAS COMMITTED EVERY 48 HOURS, 48 MINUTES, ONE (1) FORCIBLE RAPE WAS COMMITTED EVERY 8 HOURS, 8 MINUTES, ONE (1) ROBBERY EVERY 58 MINUTES, ONE (1) AGGRAVATED ASSAULT EVERY 45 MINUTES, ONE (1) BURGLARY EVERY 7 MINUTES, ONE (1) LARCENY-THEFT EVERY 4 MINUTES, 30 SECONDS AND ONE (1) MOTOR VEHICLE THEFT EVERY 9 MINUTES. FURTHER ANALYSIS REVEALED ONE (1) VIOLENT CRIME WAS COMMITTED EVERY 24 MINUTES AND ONE (1) PROPERTY CRIME EVERY 2 MINUTES. OVERALL, ONE (1) SERIOUS CRIME IS REPORTED TO THE POLICE EVERY 2 MINUTES.

THE CITY OF BOSTON, WITH 31,188 CRIME INDEX OFFENSES, ACCOUNTED FOR 22.6% OF THE TOTAL CRIME REPORTED IN THE COMMONWEALTH, WHILE THE CITY OF CAMBRIDGE ADDED 2.5% WITH 3,512 CRIME INDEX OFFENSES. OTHER CITIES OF SIGNIFICANCE WERE:

CITY	TOTAL INDEX OFFENSES (JANUARY-JUNE, 1977)	PERCENTAGE %
FALL RIVER	3,075	2.2%
NEW BEDFORD	1,751	1.3%
SPRINGFIELD	5,344	3.9%
WORCESTER	6,368	4.6%
BROCKTON	3,613	2.6%
LOWELL	2,685	1.9%
LYNN	2,426	1.8%
QUINCY	1,908	1.4%
SOMERVILLE	2,166	1.6%
ALL OTHER CITIES/TOWNS	73,942	53.6%

OF THE EIGHTY-NINE (89) HOMICIDES COMMITTED, 30 WERE BY HANDGUN,

12 WERE BY RIFLE OR SHOTGUN, 28 WERE BY KNIFE, 9 WERE COMMITTED WITH PERSONAL WEAPONS (HANDS, FISTS OR FEET), AND 10 WERE BY OTHER DANGEROUS WEAPON (BLUNT INSTRUMENT, MISSLES SUCH AS ROCKS OR STONES, ETC.). 23 OF THE HOMICIDES WERE COMMITTED IN DOMESTIC SITUATIONS (HUSBAND-WIFE ARGUMENTS, OTHER FAMILY MEMBER DISPUTES), 52 OF THE HOMICIDES WERE COMMITTED DURING THE COMMISSION OF OR WERE RELATED TO A CRIMINAL ACT AND 9 WERE COMMITTED IN CIVIL SITUATIONS (MOTOR VEHICLE ARGUMENTS, NEIGHBOR DISPUTES, ETC.). 30 OR 33.7% OF THE 89 HOMICIDES WERE COMMITTED IN THE CITY OF BOSTON. STATEWIDE THERE HAS BEEN ONE (1) POLICE OFFICER KILLED IN THE LINE OF DUTY (HOLYOKE) AND A TOTAL OF 954 POLICE OFFICERS HAVE BEEN ASSAULTED PERFORMING THEIR DUTIES WITH 382 OR 40.0% RECEIVING INJURIES AND 572 OR 60.0% WITHOUT INJURY. THE MAJORITY OF THE POLICE OFFICER ASSAULTS OCCURRED AFTER RESPONDING TO "DISTURBANCE CALLS" (FAMILY QUARRELS, MAN WITH A GUN, ETC.). PERSONAL WEAPONS (HANDS, FISTS AND FEET, ETC.) ACCOUNTED FOR THE GREATER PERCENTAGE OF POLICE OFFICERS ASSAULTED AS REGARDS TYPE OF WEAPON USED.

***SPECIAL NOTE TO PRESS AND NEWS MEDIA:

MASSACHUSETTS UNIFORM CRIME REPORTING PROGRAM

STATISTICAL REPORT - QUARTERLY CRIME INDEX

APRIL - JUNE 1977

The Massachusetts Uniform Crime Reporting Program is centered around 376 local and state law enforcement agencies who submit monthly reports to the Crime Reporting Unit, Department of Public Safety.

The data presented in this report are offenses known to law enforcement agencies and represent a portion of those offenses that have actually occurred. Please note that the population for each city and town has been indicated directly beneath each city and town line (pages 1 through 20). An increase in the Uniform Crime Reports may indicate an increase due to improved detecting or reporting of crime, in addition to an actual increase of offenses.

Individuals using these TOTAL VOLUME tabulations are cautioned against drawing conclusions by making direct comparisons between cities and towns due to the existence of numerous factors which affect the amount and type of crime from place to place. It is important to remember that crime is a social problem and therefore, a concern of the entire community. The efforts of law enforcement personnel are limited to factors within their control.

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

- *Density and size of the community population and the metropolitan area of which it is a part.*
- *Composition of the population with reference particularly to age, sex and race.*
- *Economic status of the population.*
- *Relative stability of population, including commuters, seasonal and other transient types.*
- *Climate, including seasonal weather conditions.*
- *Educational, recreational and religious characteristics.*
- *Attitude of the public toward law enforcement problems.*

INTRODUCTION

Uniform Crime Reporting is a local, state, and national law enforcement program. This program provides a nationwide perspective of crime based on the submission of police statistics by law enforcement agencies throughout the country. The crime data is submitted to the Massachuetts Crime Reporting Unit, which administers the State Uniform Crime Reporting Program (U.C.R.), and then to the national U.C.R. program which is administered by the Federal Bureau of Investigation. The success of U.C.R. is a testimony to the dedicated and cooperative attitude of peace officers in this Nation. The information collected under the U.C.R. program should be a portion of the data a law enforcement agency compiles for its own effective and efficient operation.

PURPOSE

It is the purpose of this Massachusetts Uniform Crime Report to acknowledge the crime problem areas in Massachusetts. The presentation is designed to give a preliminary look at the extent of crime in Massachusetts and to assist local, state and national law enforcement in future efforts to combat crime.

Future reports, beginning in 1978, will contain more detailed statistical information, along with data comparable to prior periods and various areas. Thus, significant changes in crime trends will become evident through the continuous collection and periodic analysis of U.C.R. data.

The fundamental objectives of the Massachusetts UCR Program are:

1. *Inform the governor, legislature, other governmental officials, and the public as to the nature of the crime problem in Massachusetts - its magnitude and its trends.*

2. *Provide law enforcement administrators with criminal statistics for administrative and operational use.*

3. *Determine who commits crimes by age, sex, race and other attributes in order to find the proper focus for crime prevention and enforcement.*

4. *Provide base data and statistics to measure the workload and effectiveness of Massachusetts' Criminal Justice System.*

5. *Provide base data and statistics to measure the effects of prevention and deterrence programs.*

6. *Provide base data and statistics for research to improve the efficiency, effectiveness and performance of criminal justice agencies.*

7. *Provide base data to assist in the assessment of social and other causes of crime for the development of theories of criminal behavior.*

8. *Keeping the public informed as to the volume and nature of crime so they may judge and act accordingly.*

NATIONAL PROGRAM

Uniform Crime Reporting orginated in 1929 when the International Association of Chiefs of Police (I.A.C.P.) formulated the standards for the collection of crime data. On June 11, 1930, Congress approved legislation which authorized the Federal Bureau of Investigation to collect and compile nationwide crime counts. Since that time the FBI has acted as a clearinghouse for crime information. The Committee on Uniform Crime Records of the IACP continues as an advisor to the FBI in the conduct of the UCR Program.

National crime statistics are published on an annual basis by the FBI in their book entitled *Crime in the United States*. Participation by over 10,000 law enforcement agencies, either through a state program or direct submission, provides the FBI with the needed data.

STATE PROGRAM

The Massachusetts Uniform Crime Reporting Program began in June of 1976 with the recruitment and training of law enforcement agencies in the Commonwealth. Official data collection began January 1, 1977, with approximately 350 agencies participating. During the first six months, agency participation has increased to the point that 95% + of the Commonwealth's population is covered by a participating reporting agency. At present, 376 agencies have participated in the State Program during the first six months of 1977.

The Crime Reporting Unit, within the Department of Public Safety, is presently funded by L.E.A.A. with approximately 10% matching State funds. However, legislation is pending in the State Legislature (House Bill 1868) which will, if adopted, permanently establish a crime reporting function within the Department of Public Safety. Passage of this legislation would ensure uniform and accurate crime reporting data. Furthermore, passage of the UCR legislation will ensure that this crime reporting data be available to the Governor, Legislature, all interested law enforcement agencies, criminal justice scholars and the citizenry of the Commonwealth.

PROGRAM OPERATION

Massachusetts' Uniform Crime Reporting Program is operating as a manual system at present. All data is collected and submitted by local law enforcement agencies to the state. The state forwards a verified copy of all data to the FBI for use in the national UCR Program. The data retained by the state is used in compiling crime reports such as this quarterly report.

Various cross checks have been built into the system to insure the most accurate report possible. Thus, errors are kept to a minimum and reliability and validity increased. Inherent problems are encountered in all statistical programs and the UCR Program is also effected by incorrect reports, incomplete records, misinterpreted data and simple human error. The cross checks built into the system eliminate the majority of these errors and whenever any hidden errors are encountered they are corrected or eliminated from the collective report. Those that remain are insignificant, if the report is used as an indicator, for which purpose it was designed.

CRIME CLASSIFICATIONS

Seven criminal offenses were chosen in the Uniform Crime Program to measure and evaluate the crime problem. They were chosen because of their seriousness and frequency of occurrence and their likelihood of being reported to the police. These seven crimes are referred to as Index Crimes.

It must be kept in mind that all offenses reported herein are known offenses to the police. There has been no consideration given to "unreported crimes". Because not all crimes are brought to the attention of the police, the International Association of Chiefs of Police (IACP) have limited the reporting of offenses (for UCR purposes) to the seven Index Crimes. The seven Index Crimes are felt to be an adequate basis for comparison because they are serious by nature and/or volume.

The following short definitions of the Crime Index Offenses are provided to give the reader a better insight into this Quarterly Crime Report. It should be noted that attempts to commit any of these offenses are scored as actual offenses except in the case of murder (attempted) when an aggravated assault is scored instead of murder.

1. MURDER - the willful (nonnegligent) killing of one human being by another.

2. FORCIBLE RAPE - the carnal knowledge of a female forcibly and against her will.

3. ROBBERY - the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or violence and/or by putting the victim in fear.

4. AGGRAVATED ASSAULT - an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

5. BURGLARY - the unlawful entry of a structure to commit a felony or theft.

6. LARCENY - THEFT - the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another.

7. MOTOR VEHICLE THEFT - the theft or attempted theft of a motor vehicle.

Note: The Crime Index Offenses (above) are also referred to a Part I crimes.

N E W S R E L E A S E

THE MASSACHUSETTS CRIME REPORTING UNIT, DEPARTMENT OF PUBLIC SAFETY, ANNOUNCED IN ITS THIRD QUARTER UNIFORM CRIME REPORT FOR 1977 THAT 218,259 CRIME INDEX OFFENSES WERE REPORTED OR MADE KNOWN TO MASSACHUSETTS LAW ENFORCEMENT AGENCIES DURING THE JANUARY - SEPTEMBER, 1977, PERIOD. SERIOUS CRIME REPORTED IN THE SIX LARGEST CITIES IN THE COMMONWEALTH DECREASED 17.0 % OVERALL DURING THE FIRST NINE MONTHS OF 1977 WHEN COMPARED WITH THE SAME REPORTING PERIOD OF 1976. THE 17.0 % DECREASE IN THE CRIME INDEX WAS COMPILED AFTER ANALYSIS OF CRIME REPORTS SUBMITTED TO THE CRIME REPORTING UNIT FROM BOSTON, CAMBRIDGE, FALL RIVER, NEW BEDFORD, SPRINGFIELD AND WORCESTER OVER THE JANUARY - SEPTEMBER ,REPORTING PERIOD. CONSIDERING THE SIX LARGEST CITIES AS A WHOLE, THE JANUARY THROUGH SEPTEMBER, 1977, REPORT SHOWED A TOTAL OF 96,284 SERIOUS CRIMES REPORTED TO POLICE IN 1976 AND 79,952 SERIOUS CRIMES REPORTED IN 1977. THESE TWO FIGURES ACCOUNTED FOR THE 17.0 % DECREASE IN THE CRIME INDEX. THE SEVEN CRIMES FOR THE NINE MONTH PERIOD BROKE DOWN INTO THE FOLLOWING PERCENTAGES:

MURDER	-25.5%	FORCIBLE RAPE	+9.8%
ROBBERY	-17.4%	AGGRAVEATED ASSAULT	- .6%
BURGLARY	-20.9%	LARCENY-THEFT	-14.3%
		MOTOR VEHICLE THEFT	-19.3%

A FURTHER ANALYSIS OF THE 1977 CRIME STATISTICS FOR THE SIX MASSACHUSETTS CITIES OVER 100,000 IN POPULATION REVEALED THAT VIOLENT CRIME FELL 9.6% AND NON VIOLENT (PROPERTY) CRIME WAS DOWN 17.9% WHEN COMPARED TO 1976 CRIME STATISTICS.

OF THE 218,259 (STATE TOTAL) CRIME INDEX OFFENSES REPORTED TO THE CRIME REPORTING UNIT BY APPROXIMATELY 376 LOCAL AND STATE LAW ENFORCEMENT AGENCIES 17,227 OR 7.9% WERE CRIMES OF VIOLENCE (HOMICIDE, FORCIBLE RAPE, AGGRAVATED ASSAULT AND ROBBERY) AND 201,032 OR 92.1% WERE PROPERTY CRIMES (BURGLARY, LARCENY-THEFT AND MOTOR VEHICLE THEFT). 131 HOMICIDES OCCURED IN THE COMMONWEALTH DURING THE NINE MONTH REPORTING PERIOD OF 1977. THE OTHER SIX INDEX OFFENSES BROKE DOWN INTO THE FOLLOWING VOLUME AND PERCENTAGE FIGURES:

CRIME	TOTAL INDEX NUMBER	% OF TOTAL
FORCIBLE RAPE	873	.4%
ROBBERY	6,756	3.1%
AGGRAVATED ASSAULT	9,467	4.3%
BURGLARY	60,936	27.9%
LARCENY-THEFT	94,980	43.5%
MOTOR VEHICLE THEFT	45,116	20.7%

THE MASSACHUSETTS "CRIME CLOCK AVERAGE", BASED ON THE UNIFORM CRIME REPORTS FOR THE JANUARY - SEPTEMBER, 1977, PERIOD REVEALS ONE (1) HOMICIDE WAS COMMITTED EVERY 50 HOURS, ONE (1) FORCIBLE RAPE WAS COMMITTED EVERY 7 HOURS, 30 MINUTES, ONE ROBBERY EVERY 58 MINUTES,

ONE (1) AGGRAVATED ASSAULT EVERY 41 MINUTES, ONE (1) BURGLARY EVERY 6 MINUTES, ONE (1) LARCENY-THEFT EVERY 4 MINUTES, 6 SECONDS AND ONE (1) MOTOR VEHICLE THEFT EVERY 9 MINUTES. FURTHER ANALYSIS REVEALED ONE (1) VIOLENT CRIME WAS COMMITTED EVERY 23 MINUTES AND ONE (1) PROPERTY CRIME EVERY 2 MINUTES. OVERALL, ONE (1) CRIME IS REPORTED TO THE POLICE EVERY 1 MINUTE 48 SECONDS.

THE CITY OF BOSTON, WITH 48,341 CRIME INDEX OFFENSES, ACCOUNTED FOR 22.1% OF THE TOTAL CRIME REPORTED IN THE COMMONWEALTH, WHILE THE CITY OF CAMBRIDGE ADDED 2.5% WITH 5,386 CRIME INDEX OFFENSES. OTHER CITIES OF SIGNIFICANCE WERE:

CITY	TOTAL INDEX OFFENSES (JAN. - SEPT., 1977)	PERCENTAGE %
FALL RIVER	4,854	2.2
NEW BEDFORD	2,614	1.2
SPRINGFIELD	8,805	4.0
WORCESTER	9,952	4.6
BROCKTON	5,689	2.6
LOWELL	4,154	1.9
LYNN	4,633	2.1
QUINCY	2,929	1.3
SOMERVILLE	3,346	1.5
ALL OTHER CITIES/TOWNS	117,556	53.9

OF THE 131 HOMICIDES COMMITTED, 41 WERE BY HANDGUN, 13 WERE BY RIFLE OR SHOTGUN, 40 WERE BY KNIFE, 16 WERE COMMITTED WITH PERSONAL WEAPONS (HANDS, FISTS OR FEET), AND 21 WERE BY OTHER DANGEROUS WEAPON (BLUNT INSTRUMENT, MISSLES SUCH AS ROCKS OR STONES, ETC.) 40 OF THE HOMICIDES WERE COMMITTED IN DOMESTIC SITUATIONS (HUSBAND-WIFE ARGUMENTS, OTHER FAMILY MEMBER DISPUTES), 77 OF THE HOMICIDES WERE COMMITTED DURING THE COMMISSION OF OR WERE RELATED TO A CRIMINAL ACT AND 14

WERE COMMITTED IN CIVIL SITUATIONS (MOTOR VEHICLE ARGUMENTS, NEIGHBOR DISPUTES, ETC.). 53 OR 40.5% OF THE 131 HOMICIDES WERE COMMITTED IN THE CITY OF BOSTON. STATEWIDE THERE HAS BEEN ONE (1) POLICE OFFICER KILLED IN THE LINE OF DUTY (HOLYOKE) AND A TOTAL OF 1,604 POLICE OFFICERS HAVE BEEN ASSAULTED PERFORMING THEIR DUTIES WITH 619 OR 38.6% RECEIVING INJURIES AND 985 OR 61.4% WITHOUR INJURY. THE MAJORITY OF THE POLICE OFFICER ASSAULTS OCCURRED AFTER RESPONDING TO "DISTURBANCE CALLS" (FAMILY QUARRELS, MAN WITH A GUN, ETC.). PERSONAL WEAPONS (HANDS, FISTS AND FEET) ACCOUNTED FOR THE GREATER PERCENTAGE OF POLICE OFFICERS ASSAULTED AS REGARDS TYPE OF WEAPON USED.

*** SPECIAL NOTE TO PRESS AND NEWS MEDIA:

BEFORE EDITING CHANGES ARE PUBLISHED REGARDING THIS REPORT, PLEASE ADVISE MR. RONALD B. COBB, SUPERVISING IDENTIFICATION AGENT, CRIME REPORTING UNIT AT 617 566-4500, EXT. 305-306.

END OF NEWS RELEASE

MASSACHUSETTS UNIFORM CRIME REPORTING PROGRAM

STATISTICAL REPORT - QUARTERLY CRIME INDEX

JANUARY - SEPTEMBER, 1977

The Massachusetts Uniform Crime Reporting Program is centered around 376 local and state law enforcement agencies who submit monthly reports to the Crime Reporting Unit, Department of Public Safety.

The data presented in this report are offenses known to law enforcement agencies and represent a portion of those offenses that have actually occurred. Please note that the population for each city and town has been indicated directly beneath each city and town line (pages 1 through 18). An increase in the Uniform Crime Reports may indicate an increase due to improved detecting or reporting of crime, in addition to an actual increase of offenses.

Individuals using these TOTAL VOLUME tabulations are cautioned against drawing conclusions by making direct comparisons between cities and towns due to the existence of numerous factors which affect the amount and type of crime from place to place. It is important to remember that crime is a social problem and therefore, a concern of the entire community. The efforts of law enforcement personnel are limited to factors within their control.

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

- *Density and size of the community population and the metropolitan area of which it is a part.*
- *Composition of the population with reference particularly to age, sex and race.*
- *Economic status of the population.*
- *Relative stability of population, including commuters, seasonal and other transient types.*
- *Climate, including seasonal weather conditions.*
- *Educational, recreational and religious characteristics.*
- *Attitude of the public toward law enforcement problems.*

INTRODUCTION

Uniform Crime Reporting is a local, state, and national law enforcement program. This program provides a nationwide perspective of crime based on the submission of police statistics by law enforcement agencies throughout the country. The crime data is submitted to the Massachuetts Crime Reporting Unit, which administers the State Uniform Crime Reporting Program (U.C.R.), and then to the national U.C.R. program which is administered by the Federal Bureau of Investigation. The success of U.C.R. is a testimony to the dedicated and cooperative attitude of peace officers in this Nation. The information collected under the U.C.R. program should be a portion of the data a law enforcement agency compiles for its own effective and efficient operation.

PURPOSE

It is the purpose of this Massachusetts Uniform Crime Report to acknowledge the crime problem areas in Massachusetts. The presentation is designed to give a preliminary look at the extent of crime in Massachusetts and to assist local, state and national law enforcement in future efforts to combat crime.

Future reports, beginning in 1978, will contain more detailed statistical information, along with data comparable to prior periods and various areas. Thus, significant changes in crime trends will become evident through the continuous collection and periodic analysis of U.C.R. data.

The fundamental objectives of the Massachusetts UCR Program are:

1. *Inform the governor, legislature, other governmental officials, and the public as to the nature of the crime problem in Massachusetts - its magnitude and its trends.*

2. *Provide law enforcement administrators with criminal statistics for administrative and operational use.*

3. *Determine who commits crimes by age, sex, race and other attributes in order to find the proper focus for crime prevention and enforcement.*

4. *Provide base data and statistics to measure the workload and effectiveness of Massachusetts' Criminal Justice System.*

5. *Provide base data and statistics to measure the effects of prevention and deterrence programs.*

6. *Provide base data and statistics for research to improve the efficiency, effectiveness and performance of criminal justice agencies.*

7. *Provide base data to assist in the assessment of social and other causes of crime for the development of theories of criminal behavior.*

8. *Keeping the public informed as to the volume and nature of crime so they may judge and act accordingly.*

NATIONAL PROGRAM

Uniform Crime Reporting orginated in 1929 when the International Association of Chiefs of Police (I.A.C.P.) formulated the standards for the collection of crime data. On June 11, 1930, Congress approved legislation which authorized the Federal Bureau of Investigation to collect and compile nationwide crime counts. Since that time the FBI has acted as a clearinghouse for crime information. The Committee on Uniform Crime Records of the IACP continues as an advisor to the FBI in the conduct of the UCR Program.

National crime statistics are published on an annual basis by the FBI in their book entitled *Crime in the United States.* Participation by over 10,000 law enforcement agencies, either through a state program or direct submission, provides the FBI with the needed data.

STATE PROGRAM

The Massachusetts Uniform Crime Reporting Program began in June of 1976 with the recruitment and training of law enforcement agencies in the Commonwealth. Official data collection began January 1, 1977, with approximately 350 agencies participating. During the first nine months, agency participation has increased to the point that 95% + of the Commonwealth's population is covered by a participating reporting agency. At present, 376 agencies have participated in the State Program during the first 9 months of 1977.

The Crime Reporting Unit, within the Department of Public Safety, is presently funded by L.E.A.A. with approximately 10% matching State funds. However, legislation is pending in the State Legislature (House Bill 1868) which will, if adopted, permanently establish a crime reporting function within the Department of Public Safety. Passage of this legislation would ensure uniform and accurate crime reporting data. Furthermore, passage of the UCR legislation will ensure that this crime reporting data be available to the Governor, Legislature, all interested law enforcement agencies, criminal justice scholars and the citizenry of the Commonwealth.

PROGRAM OPERATION

Massachusetts' Uniform Crime Reporting Program is operating as a manual system at present. All data is collected and submitted by local law enforcement agencies to the state. The state forwards a verified copy of all data to the FBI for use in the national UCR Program. The data retained by the state is used in compiling crime reports such as this quarterly report.

Various cross checks have been built into the system to insure the most accurate report possible. Thus, errors are kept to a minimum and reliability and validity increased. Inherent problems are encountered in all statistical programs and the UCR Program is also effected by incorrect reports, incomplete records, misinterpreted data and simple human error. The cross checks built into the system eliminate the majority of these errors and whenever any hidden errors are encountered they are corrected or eliminated from the collective report. Those that remain are insignificant, if the report is used as an indicator, for which purpose it was designed.

CRIME CLASSIFICATIONS

Seven criminal offenses were chosen in the Uniform Crime Program to measure and evaluate the crime problem. They were chosen because of their seriousness and frequency of occurrence and their likelihood of being reported to the police. These seven crimes are referred to as Index Crimes.

It must be kept in mind that all offenses reported herein are known offenses to the police. There has been no consideration given to "unreported crimes". Because not all crimes are brought to the attention of the police, the International Association of Chiefs of Police (IACP) have limited the reporting of offenses (for UCR purposes) to the seven Index Crimes. The seven Index Crimes are felt to be an adequate basis for comparison because they are serious by nature and/or volume.

The following short definitions of the Crime Index Offenses are provided to give the reader a better insight into this Quarterly Crime Report. It should be noted that attempts to commit any of these offenses are scored as actual offenses except in the case of murder (attempted) when an aggravated assault is scored instead of murder.

1. MURDER - the willful (nonnegligent) killing of one human being by another.

2. FORCIBLE RAPE - the carnal knowledge of a female forcibly and against her will.

3. ROBBERY - the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or violence and/or by putting the victim in fear.

4. AGGRAVATED ASSAULT - an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

5. BURGLARY - the unlawful entry of a structure to commit a felony or theft.

6. LARCENY - THEFT - the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another.

7. MOTOR VEHICLE THEFT - the theft or attempted theft of a motor vehicle.

Note: The Crime Index Offenses (above) are also referred to a Part I crimes.

NEWS RELEASE

The Massachusetts Crime Reporting Unit, Department of Public Safety, announced in it's first quarterly Crime Index report for 1978 (covering January through March, 1978) that serious crime reported in the Commonweath decreased 9.6% overall, during the first three months of 1978 when compared to the same reporting period last year. The 9.6% decrease in the Crime Index was compiled after analysis of crime reports submitted to the Crime Reporting Unit by 333 local and state law enforcement agencies.

The quarterly Crime Index report further showed a total of 57,523 serious crimes being reported this quarter as opposed to 63,641 serious crimes reported during the same period last year.

The seven index crimes (murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft and motor vehicle theft) for the Commonwealth broke down into the following percentages (crime trend):

MURDER: -24.4 FORCIBLE RAPE: +.4 ROBBERY: -13.9

AGGRAVATED ASSAULT: +12.0 BURGLARY: -6.8

LARCENY-THEFT: -11.6 MOTOR VEHICLE THEFT: -13.4

A further analysis of the 1978 (January - March) crime statistics for the Commonwealth revealed that violent crime decreased slightly by .5% and property crime decreased dramatically by 10.5% (January-March 1978 vs. 1977).

Of the 57,523 crime index offenses reported to the Crime Reporting Unit, 5,355 or 9.3% were crimes of violence and 52,168 or 90.7% were property crimes.

34 murders occurred in the Commonwealth during the first three months of 1978 accounting for .06% of the total crime index. The other six offenses broke down into the following volume and percentage figures:

CRIME	TOTAL INDEX NUMBER	% OF TOTAL
FORCIBLE RAPE	233	.4
ROBBERY	2,088	3.6
AGGRAVATED ASSAULT	3,000	5.2
BURGLARY	17,783	30.9
LARCENY-THEFT	21,940	38.1
MOTOR VEHICLE THEFT	12,445	21.6

The City of Boston, with 13,106 crime index offenses during the period, accounted for 22.8% of the total crime reported in the Commonwealth. The other five largest cities in the state accounted for the following percentages of the total crime index:

CAMBRIDGE	1,426	2.5% of the total crime index
FALL RIVER	1,229	2.1% of the total crime index
NEW BEDFORD	823	1.4% of the total crime index
SPRINGFIELD	2,759	4.8% of the total crime index
WORCESTER	2,761	4.8% of the total crime index
ALL OTHER MASSACHUSETTS CITIES AND TOWNS	35,419	61.6% of the total crime index

Of the 34 homicides committed during the first three months of 1978, 5 were by handgun, 7 were by rifle-shotgun, 14 were by knife or cutting instrument, 3 were by hands, fist or feet and 5 were by other dangerous weapon. 21 of the 34 homicides were committed during the commission of or were related to a criminal act, 11 were committed in domestic argument type situations and 2 were committed in civil situations. 10 or 29.4% of the 34 homicides were committed in the City of Boston.

END OF RELEASE

MASSACHUSETTS UNIFORM CRIME REPORTING PROGRAM

STATISTICAL REPORT

JANUARY - MARCH 1978 CRIME INDEX

The Massachusetts Uniform Crime Reporting Program is centered around 333 local and state law enforcement agencies who submit monthly reports to the Crime Reporting Unit, Department of Public Safety.

The data presented in this report are offenses known to law enforcement agencies and represent a portion of those offenses that have actually occurred. Please note that the population for each city and town has been indicated directly beneath each city and town line. An increase in the Uniform Crime Reports may indicate an increase due to improved detecting or reporting of crime, in addition to an actual increase of offenses.

Individuals using these Crime Index tabulations are cautioned against drawing conclusions by making direct comparisons between cities and towns due to the existence of numerous factors which affect the amount and type of crime from place to place. It is important to remember that crime is a social problem and therefore, a concern of the entire community. The efforts of law enforcement personnel are limited to factors within their control.

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

- *Density and size of the community population and the metropolitan area of which it is a part.*
- *Composition of the population with reference particularly to age, sex and race.*
- *Economic status of the population.*
- *Relative stability of population, including commuters, seasonal and other transient types.*
- *Climate, including seasonal weather conditions.*
- *Educational, recreational and religious characteristics.*
- *Attitude of the public toward law enforcement problems.*

The preparation and publication of this report was made possible by Discretionary Grant Award Number 77-DF-01-0006 from the LAW ENFORCEMENT ASSISTANCE ADMINISTRATION.

MASSACHUSETTS UNIFORM CRIME REPORTING PROGRAM

STATISTICAL REPORT

JANUARY - JUNE 1978 CRIME INDEX

The Massachusetts Uniform Crime Reporting Program is centered around 333 local and state law enforcement agencies who submit monthly reports to the Crime Reporting Unit, Department of Public Safety.

The data presented in this report are offenses known to law enforcement agencies and represent a portion of those offenses that have actually occurred. Please note that the population for each city and town has been indicated directly beneath each city and town line. An increase in the Uniform Crime Reports may indicate an increase due to improved detecting or reporting of crime, in addition to an actual increase of offenses.

Individuals using these Crime Index tabulations are cautioned against drawing conclusions by making direct comparisons between cities and towns due to the existence of numerous factors which affect the amount and type of crime from place to place. It is important to remember that crime is a social problem and therefore, a concern of the entire community. The efforts of law enforcement personnel are limited to factors within their control.

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

- *Density and size of the community population and the metropolitan area of which it is a part.*
- *Composition of the population with reference particularly to age, sex and race.*
- *Economic status of the population.*
- *Relative stability of population, including commuters, seasonal and other transient types.*
- *Climate, including seasonal weather conditions.*
- *Educational, recreational and religious characteristics.*
- *Attitude of the public toward law enforcement problems.*

MASSACHUSETTS UNIFORM CRIME REPORTING PROGRAM

STATISTICAL REPORT

JANUARY - SEPTEMBER 1978 CRIME INDEX

The Massachusetts Uniform Crime Reporting Program is centered around 356 local and state law enforcement agencies who submit monthly reports to the Crime Reporting Unit, Department of Public Safety.

The data presented in this report are offenses known to law enforcement agencies and represent a portion of those offenses that have actually occurred. Please note that the population for each city and town has been indicated directly beneath each city and town line. An increase in the Uniform Crime Reports may indicate an increase due to improved detecting or reporting of crime, in addition to an actual increase of offenses.

Individuals using these Crime Index tabulations are cautioned against drawing conclusions by making direct comparisons between cities and towns due to the existence of numerous factors which affect the amount and type of crime from place to place. It is important to remember that crime is a social problem and therefore, a concern of the entire community. The efforts of law enforcement personnel are limited to factors within their control.

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

- *Density and size of the community population and the metropolitan area of which it is a part.*
- *Composition of the population with reference particularly to age, sex and race.*
- *Economic status of the population.*
- *Relative stability of population, including commuters, seasonal and other transient types.*
- *Climate, including seasonal weather conditions.*
- *Educational, recreational and religious characteristics.*
- *Attitude of the public toward law enforcement problems.*

PUBLISHED BY THE MASSACHUSETTS DEPARTMENT OF PUBLIC SAFETY
PUBLICATION NUMBER 9649-1100-9-8-78
APPROVED BY ALFRED C. HOLLAND, STATE PURCHASING AGENT

The preparation and publication of this report was made possible by Discretionary Grant Award Number 78-DF-AX-0118 from the LAW ENFORCEMENT ASSISTANCE ADMINISTRATION.

NEWS RELEASE

Crime trend statistics released today by the Massachusetts Crime Reporting Unit, (Massachusetts Department of Public Safety), in it's third quarterly Crime Index report for 1978 (covering January through September, 1978), indicates that serious crime reported in the Commonwealth decreased 3.4% overall, during the first nine months of 1978 when compared to the same reporting period last year.

A further analysis of the 1978 (January through September) crime statistics for the Commonwealth revealed that while property crime decreased by 4.2%, violent crime increased 6.6%. The statistical results in the Crime Index report were compiled after analysis of crime reports submitted to the Crime Reporting Unit by 356 local and state law enforcement agencies.

The third quarterly crime trend report showed a total of 222,030 serious crimes were reported during the first nine months of 1978 as compared to 229,825 serious crimes reported during the same period last year. Of the 222,030 crime index offenses reported to the Crime Reporting Unit, 19,111 or 8.6% were crimes of violence and 202,919 or 91.4% were property crimes.

The seven serious crimes, which make up the crime index, for the Commonwealth broke down into the following percentages (crime trends):

MURDER: +7.5 FORCIBLE RAPE: -.4 ROBBERY: -2.2

AGGRAVATED ASSAULT: +13.4 BURGLARY: -2.8

LARCENY-THEFT: -4.6 MOTOR VEHICLE THEFT: -5.3

144 murders occurred in the Commonwealth during the first nine months of 1978, accounting for .06% of the total crime index. The other six offenses broke down into the following volume and percentage figures:

CRIME	TOTAL INDEX NUMBER	% OF TOTAL
FORCIBLE RAPE	916	.4
ROBBERY	6,813	3.1
AGGRAVATED ASSAULT	11,238	5.1
BURGLARY	62,388	28.1
LARCENY-THEFT	95,927	43.2
MOTOR VEHICLE THEFT	44,604	20.1

The City of Boston, with 46,787 crime index offenses during the period, accounted for 21.1% of the total crime reported in the Commonwealth. The other five largest cities in the state accounted for the following percentages of the total crime index:

CAMBRIDGE	4,974	2.2% of the total crime index
FALL RIVER	4,387	2.0% of the total crime index
NEW BEDFORD	2,896	1.3% of the total crime index
SPRINGFIELD	9,394	4.2% of the total crime index
WORCESTER	9,465	4.3% of the total crime index
ALL OTHER MASSACHUSETTS CITIES AND TOWNS	144,127	64.9% of the total crime index

Of the 144 homicides committed during the first nine months of 1978, 44 were by handgun, 16 were by rifle-shotgun, 47 were by knife or cutting

instrument, 9 were by hands, fist or feet and 28 were by other dangerous weapons. 86 of the 144 homicides were committed during the commission of or were related to a criminal act, 42 were committed in domestic argument type situations and 16 were committed in civil situations. 55 or 38.2% of the 144 homicides were committed in the City of Boston and 3 of the homicides occurred at the Massachusetts Correctional Institution, Walpole (inmates).

MASSACHUSETTS CRIME RATE RANKING - 1977

After examination and analysis of the Federal Bureau of Investigation's 1977 "Crime in the United States" publication, which was released October 18, 1978, the Crime Reporting Unit has determined that Massachusetts' crime rates now fall into the following national ranking positions:

TOTAL CRIME INDEX:	15th from top
VIOLENT CRIME:	18th " "
PROPERTY CRIME:	16th " "
MURDER:	44th " "
FORCIBLE RAPE:	32nd " "
ROBBERY:	12th " "
AGGRAVATED ASSAULT:	19th " "
BURGLARY:	13th " "
LARCENY-THEFT:	37th " "
*MOTOR VEHICLE THEFT:	1st in nation

* Motor Vehicle Theft comparison:

RHODE ISLAND	2nd from top
ALASKA	3rd from top
NEW YORK	4th from top
CALIFORNIA	5th from top
CONNECTICUT	6th from top
NEVADA	7th from top

Note: The Commonwealth of Massachusetts ranks 10th in population in the United States.

MASSACHUSETTS UNIFORM CRIME REPORTING PROGRAM

STATISTICAL REPORT

JANUARY - DECEMBER 1978 CRIME INDEX

The Massachusetts Uniform Crime Reporting Program is centered around 356 local and state law enforcement agencies who submit monthly reports to the Crime Reporting Unit, Department of Public Safety.

The data presented in this report are offenses known to law enforcement agencies and represent a portion of those offenses that have actually occurred. Please note that the population for each city and town has been indicated directly beneath each city and town line. An increase in the Uniform Crime Reports may indicate an increase due to improved detecting or reporting of crime, in addition to an actual increase of offenses.

Individuals using these Crime Index tabulations are cautioned against drawing conclusions by making direct comparisons between cities and towns due to the existence of numerous factors which affect the amount and type of crime from place to place. It is important to remember that crime is a social problem and therefore, a concern of the entire community. The efforts of law enforcement personnel are limited to factors within their control.

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

- *Density and size of the community population and the metropolitan area of which it is a part.*
- *Composition of the population with reference particularly to age, sex and race.*
- *Economic status of the population.*
- *Relative stability of population, including commuters, seasonal and other transient types.*
- *Climate, including seasonal weather conditions.*
- *Educational, recreational and religious characteristics.*
- *Attitude of the public toward law enforcement problems.*

NEWS RELEASE

Crime trend statistics released today by the Massachusetts Crime Reporting Unit, (Massachusetts Department of Public Safety), in it's Preliminary Annual Crime Index for 1978 (covering January through December, 1978), indicates that serious crime reported in the Commonwealth decreased 5.3% overall, when compared to the same reporting period last year.

A further analysis of the 1978 (January through December) crime statistics for the Commonwealth revealed that while property crime decreased by 6.0%, violent crime increased 5.8%. The statistical results in the Crime Index report were compiled after analysis of crime reports submitted to the Crime Reporting Unit by 356 local and state law enforcement agencies.

The preliminary annual crime trend report showed that a total of 295,659 serious crimes were reported during 1978 as compared to 311,422 serious crimes reported last year. Of the 295,659 crime index offenses reported to the Crime Reporting Unit, 25,952 or 8.8% were crimes of violence and 269,707 or 91.2% were property crimes.

The seven serious crimes, which make up the crime index, for the Commonwealth broke down into the following percentages (crime trends):

MURDER: +16.8% FORCIBLE RAPE: +5.5 ROBBERY: -.4

AGGRAVATED ASSAULT: +10.2 BURGLARY: -5.5

LARCENY-THEFT: -5.8 MOTOR VEHICLE THEFT: -7.1

209 murders occurred in the Commonwealth during 1978, accounting for .07% of the total crime index. The other six offenses broke down into the following volume and percentage figures:

CRIME	TOTAL INDEX NUMBER	% OF TOTAL
FORCIBLE RAPE	1,262	.4
ROBBERY	9,754	3.3
AGGRAVATED ASSAULT	14,727	5.0
BURGLARY	83,600	28.3
LARCENY-THEFT	125,357	42.4
MOTOR VEHICLE THEFT	60,750	20.6

The City of Boston with 65,366 crime index offenses during the period, accounted for 22.1% of the total crime reported in the Commonwealth. The other five largest cities in the state accounted for the following percentages of the total crime index:

CAMBRIDGE	7,267	2.5% of the total crime index
FALL RIVER	6,031	2.0% of the total crime index
NEW BEDFORD	4,206	1.4% of the total crime index
SPRINGFIELD	12,511	4.2% of the total crime index
WORCESTER	12,577	4.3% of the total crime index
ALL OTHER MASSACHUSETTS CITIES AND TOWNS	187,701	63.5% of the total crime index

Of the 209 homicides committed during 1978, 70 were by handgun, 22 were by rifle-shotgun, 63 were by knife or cutting instrument, 14 were by

hands, fist or feet and 40 were by other dangerous weapons. 113 of the 209 homicides were committed during the commission of or were related to a criminal act, 51 were committed in domestic argument type situations and 45 were committed in civil situations. 72 or 34.5% of the 209 homicides were committed in the City of Boston and 5 of the homicides occurred at the Massachusetts Correctional Institution, Walpole (inmates).

MASSACHUSETTS UNIFORM CRIME REPORTING PROGRAM

STATISTICAL REPORT

JANUARY - SEPTEMBER 1979 CRIME INDEX

The Massachusetts Uniform Crime Reporting Program is centered around 356 local and state law enforcement agencies who submit monthly reports to the Crime Reporting Unit, Department of Public Safety.

The data presented in this report are offenses known to law enforcement agencies and represent a portion of those offenses that have actually occurred. Please note that the population for each city and town has been indicated directly beneath each city and town line. An increase in the Uniform Crime Reports may indicate an increase due to improved detecting or reporting of crime, in addition to an actual increase of offenses.

Individuals using these Crime Index tabulations are cautioned against drawing conclusions by making direct comparisons between cities and towns due to the existence of numerous factors which affect the amount and type of crime from place to place. It is important to remember that crime is a social problem and therefore, a concern of the entire community. The efforts of law enforcement personnel are limited to factors within their control.

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

- *Density and size of the community population and the metropolitan area of which it is a part.*
- *Composition of the population with reference particularly to age, sex and race.*
- *Economic status of the population.*
- *Relative stability of population, including commuters, seasonal and other transient types.*
- *Climate, including seasonal weather conditions.*
- *Educational, recreational and religious characteristics.*
- *Attitude of the public toward law enforcement problems.*

NEWS RELEASE

Crime trend statistics released today by the Massachusetts Crime Reporting Unit, (Massachusetts Department of Public Safety), in its Third Quarterly Crime Index for 1979 (covering January through Sept. 1979), indicates that serious crime reported in the Commonwealth increased 6.9% overall, when compared to the same reporting period last year.

A further analysis of the 1979 (January through September) crime statistics for the Commonwealth revealed that property crime increased 6.5% and violent crime 11.7%. The statistical results in the Crime Index report were compiled after analysis of crime reports submitted to the Crime Reporting Unit by 356 local and state law enforcement agencies.

The third quarterly crime trend report showed that a total of 234,896 serious crimes were reported during 1979 as compared to 219,705 serious crimes reported for the third quarter of last year. Of the 234,896 crime index offenses reported to the Crime Reporting Unit, 21,191 or 9.0% were crimes of violence and 213,705 or 91.0% were property crimes.

The seven serious crimes which make up the crime index for the Commonwealth broke down into the following percentages (crime trends):

MURDER -11.1 FORCIBLE RAPE: +5.0 ROBBERY: +18.8

AGGRAVATED ASSAULT: +8.3 BURGLARY: +1.6

LARCENY-THEFT: +10.8 MOTOR VEHICLE THEFT: +4.1

One hundred twenty-eight murders occurred in the Commonwealth during the first nine months of 1979, accounting for .05% of the total crime index. The other six offenses broke down into the following volume and percentage figures:

CRIME	TOTAL INDEX NUMBER	% OF TOTAL
FORCIBLE RAPE	976	.4
ROBBERY	8,073	3.4
AGGRAVATED ASSAULT	12,014	5.1
BURGLARY	62,900	26.8
LARCENY-THEFT	104,852	44.6
MOTOR VEHICLE THEFT	45,953	19.6

The City of Boston with 51,856 crime index offenses during the period accounted for 22.1% of the total crime reported in the Commonwealth. The other five largest cities in the state accounted for the following percentages of the total crime index:

CAMBRIDGE	6,169	2.6% of the total crime index
FALL RIVER	4,567	1.9% of the total crime index
NEW BEDFORD	3,900	1.7% of the total crime index
SPRINGFIELD	9,715	4.1% of the total crime index
WORCESTER	9,159	3.9% of the total crime index
ALL OTHER MASSACHUSETTS CONTRIBUTORS	149,530	63.7% of the total crime index

Of the 128 homicides committed during the first 9 months of 1979, 30

were by handgun, 11 by rifle-shotgun, 44 by knife or cutting instrument, 13 were by hands, fist or feet and 30 by other dangerous weapons. Eighty-four of the 128 homicides were committed during the commission of or were related to a criminal act, 12 were committed during domestic argument type situations and 32 were committed in civil situations. Sixty-two or 48.4% of the 128 homicides were committed in the City of Boston.

Law enforcement agencies in Massachusetts reported 2,999 offenses of arson for the first nine months of 1979. Arson of mobile property (motor vehicles, trailers, airplanes, boats, etc.) accounted for 1784 or 59.5% of the arson reported, structural fires accounted for 1078 or 35.9%, with the all other category (crops, timber, fences, signs, etc.) accounting for the remaining 137 or 4.6%. Seven deaths were reported as a result of arson offenses for the January through September, 1979 reporting period. The total property loss reported from all arsons was $8,878,421. Massachusetts law enforcement agencies cleared 9.5% of the arsons reported. This information was compiled from the reports submitted from 172 or 48.3% of the contributors in the Massachusetts Uniform Crime Reporting Program.

MASSACHUSETTS UNIFORM CRIME REPORTING PROGRAM

STATISTICAL REPORT

JANUARY - MARCH 1980 CRIME INDEX

The Massachusetts Uniform Crime Reporting Program is centered around 349 local and state law enforcement agencies who submit monthly reports to the Crime Reporting Unit, Department of Public Safety.

The data presented in this report are offenses known to law enforcement agencies and represent a portion of those offenses that have actually occurred. Please note that the population for each city and town has been indicated directly beneath each city and town line. An increase in the Uniform Crime Reports may indicate an increase due to improved detecting or reporting of crime, in addition to an actual increase of offenses.

Individuals using these Crime Index tabulations are cautioned against drawing conclusions by making direct comparisons between cities and towns due to the existence of numerous factors which affect the amount and type of crime from place to place. It is important to remember that crime is a social problem and therefore, a concern of the entire community. The efforts of law enforcement personnel are limited to factors within their control.

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

- *Density and size of the community population and the metropolitan area of which it is a part.*
- *Composition of the population with reference particularly to age, sex and race.*
- *Economic status of the population.*
- *Relative stability of population, including commuters, seasonal and other transient types.*
- *Climate, including seasonal weather conditions.*
- *Educational, recreational and religious characteristics.*
- *Attitude of the public toward law enforcement problems.*

NEWS RELEASE

Crime trend statistics released today by the Massachusetts Crime Reporting Unit, (Massachusetts Department of Public Safety), in its First Quarterly Crime Index for 1980 (covering January thru March, 1980), indicates that serious crime reported in the Commonwealth decreased 2.2% overall, when compared to the same reporting period last year.

A further analysis of the 1980 (January thru March) crime statistics for the Commonwealth revealed that violent crime increased by .7% and property crime decreased by 2.5%. The statistical results in the Crime Index were compiled after analysis of crime reports submitted to the Crime Reporting Unit by 349 local and state law enforcement agencies.

The first quarterly crime trend report showed that a total of 72, 234 serious crimes were reported during the first quarter of 1980 as compared to 73,863 serious crimes reported for the first quarter of last year. Of the 72,234 crime index offenses reported to the Crime Reporting Unit, 6,870 or 9.5% were crimes of violence and 65,364 or 90.5% were property crimes.

The seven serious crimes which make up the crime index for the Commonwealth broke down into the following percentages (crime trends):

MURDER: +65.8	FORCIBLE RAPE: +6.4	ROBBERY: -2.8
AGGRAVATED ASSAULT: +2.6	BURGLARY: -.8	
LARCENY-THEFT: +2.9	MOTOR VEHICLE THEFT: -14.3	

Sixty-three murders occurred in the Commonwealth during the first quarter of 1980, accounting for .09% of the total crime index. The other six offenses broke down into the following volume and percentage figures:

CRIME	TOTAL INDEX NUMBER	% OF TOTAL
FORCIBLE RAPE	281	.4
ROBBERY	2,909	4.0
AGGRAVATED ASSAULT	3,617	5.0
BURGLARY	21,819	30.2
LARCENY-THEFT	29,550	40.9
MOTOR VEHICLE THEFT	13,995	19.4

The City of Boston with 16,300 crime index offenses during the period, accounted for 22.6% of the total crime reported in the Commonwealth. The other five largest cities in the state accounted for the following percentages of the total crime index:

CAMBRIDGE	1849	2.6% of the total crime index
FALL RIVER	1590	2.2% of the total crime index
NEW BEDFORD	1419	2.0% of the total crime index
SPRINGFIELD	3616	5.0% of the total crime index
WORCESTER	2815	3.9% of the total crime index
ALL OTHER MASSACHUSETTS CITIES AND TOWNS:	44,645	61.8% of the total crime index

Of the sixty-three homicides committed during the first quarter of 1980, 14 were by handgun, 7 by rifle-shotgun, 22 by knife or cutting instrument,

3 were by hands, fist or feet, 16 by other dangerous weapons, and 1 by unknown weapons. Thirty-five of the sixty-three homicides occurred during the commission of or were related to a criminal act, 10 were committed during a domestic argument type situation and 18 were committed in civil situations. Seventeen or 27.0% of the 63 homicides were committed in the City of Boston.

Law enforcement agencies in Massachusetts reported 1,085 offenses of arson for the first quarter of 1980. Arson of mobile property(motor vehicles, trailers, airplanes, boats, etc.) accounted for 611 or 56.3% of the arsons reported, structural fires accounted for 437 or 40.3% with the "all other" category(crops, timber, fences, signs, etc.) accounting for the remaining 37 or 3.4%. The total property loss from arson reported was $4,773,016. Massachusetts law enforcement agencies cleared 9.0% of the arsons reported. This information was compiled from reports submitted by an average of 241 agencies over the last quarter which represents 69% of our contributors. 35.2% of this average received were active arson reports.

MASSACHUSETTS UNIFORM CRIME REPORTING PROGRAM

STATISTICAL REPORT

JANUARY - JUNE 1980 CRIME INDEX

The Massachusetts Uniform Crime Reporting Program is centered around 349 local and state law enforcement agencies who submit monthly reports to the Crime Reporting Unit, Department of Public Safety.

The data presented in this report are offenses known to law enforcement agencies and represent a portion of those offenses that have actually occurred. Please note that the population for each city and town has been indicated directly beneath each city and town line. An increase in the Uniform Crime Reports may indicate an increase due to improved detecting or reporting of crime, in addition to an actual increase of offenses.

Individuals using these Crime Index tabulations are cautioned against drawing conclusions by making direct comparisons between cities and towns due to the existence of numerous factors which affect the amount and type of crime from place to place. It is important to remember that crime is a social problem and therefore, a concern of the entire community. The efforts of law enforcement personnel are limited to factors within their control.

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

- *Density and size of the community population and the metropolitan area of which it is a part.*
- *Composition of the population with reference particularly to age, sex and race.*
- *Economic status of the population.*
- *Relative stability of population, including commuters, seasonal and other transient types.*
- *Climate, including seasonal weather conditions.*
- *Educational, recreational and religious characteristics.*
- *Attitude of the public toward law enforcement problems.*

PUBLISHED BY THE MASSACHUSETTS DEPARTMENT OF PUBLIC SAFETY
PUBLICATION NUMBER 11,861-50-1100-4-80-CR
APPROVED BY ALFRED C. HOLLAND, STATE PURCHASING AGENT

The seven serious crimes which make up the crime index for the Commonwealth broke down into the following percentages(crime trends):

MURDER: +12.9% FORCIBLE RAPE: +16.5% ROBBERY: +6.4%

AGGRAVATED ASSAULT: +9.3% BURGLARY: +4.5%

LARCENY-THEFT: +3.6% MOTOR VEHICLE THEFT: -9.3%

One hundred fourteen murders occurred in the Commonwealth during the first six months of 1980, accounting for .07% of the total index. The other six offenses broke down into the following volume and percentage figures:

CRIME	TOTAL INDEX NUMBER	% OF TOTAL
FORCIBLE RAPE	663	.4
ROBBERY	5,764	3.7
AGGRAVATED ASSAULT	8,350	5.3
BURGLARY	44,381	28.3
LARCENY-THEFT	68,774	43.9
MOTOR VEHICLE THEFT	28,723	18.3

The City of Boston with 35,021 crime index offenses during the period, accounted for 22.3% of the total crime reported in the Commonwealth. The other five largest cities in the state accounted for the following percentages of the total crime index:

CAMBRIDGE	3,751	2.4% of the total crime index
FALL RIVER	3,302	2.1% of the total crime index
NEW BEDFORD	3,097	2.0% of the total crime index
SPRINGFIELD	6,907	4.4% of the total crime index
WORCESTER	6,221	4.0% of the total crime index
ALL OTHER MASSACHUSETTS CITIES AND TOWNS	98,470	62.8% of the total crime index

Of the one hundred fourteen homicides committed during the

first six months of 1980, 30 were by handgun, 8 by rifle-shotgun, 43 by knife or cutting instrument, 5 were by hands, fist or feet, 26 by other dangerous weapons, and 2 by unknown weapons. Sixty-four of the one hundred fourteen homicides occurred during the commission of or were related to a criminal act, 17 were committed during a domestic type situation and 33 were committed in civil situations. Thirty-six or 31.6% of the 114 homicides were committed in the City of Boston.

Law enforcement agencies in Massachusetts reported 2,487 offenses of arson for the first six months of 1980. Arson of mobile property(motor vehicles, trailers, airplanes, boats, etc.) accounted for 1,275 or 51.3% of the arsons reported, structural fires accounted for 1,029 or 41.4% with the "all other" category(crops, timber, fences, signs, etc.) accounting for the remaining 183 or 7.4%. The total property loss from arson reported was $14,995,329. Massachusetts law enforcement agencies cleared 9.3% of the arsons reported. This information was compiled from reports submitted by an average of 292 agencies over the last six months which represents 84.4% of our contributors. 24.4% of this average received were active arson reports.

MASSACHUSETTS UNIFORM CRIME REPORTING PROGRAM

STATISTICAL REPORT

JANUARY - SEPTEMBER 1980 CRIME INDEX

The Massachusetts Uniform Crime Reporting Program is centered around 349 local and state law enforcement agencies who submit monthly reports to the Crime Reporting Unit,, Department of Public Safety.

The data presented in this report are offenses known to law enforcement agencies and represent a portion of those offenses that have actually occurred. Please note that the population for each city and town has been indicated directly beneath each city and town line. An increase in the Uniform Crime Reports may indicate an increase due to improved detecting or reporting of crime, in addition to an actual increase of offenses.

Individuals using these Crime Index tabulations are cautioned against drawing conclusions by making direct comparisons between cities and towns due to the existence of numerous factors which affect the amount and type of crime from place to place. It is important to remember that crime is a social problem and therefore, a concern of the entire community. The efforts of law enforcement personnel are limited to factors within their control.

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

Density and size of the community population and the metropolitan area of which it is a part.

Composition of the population with reference particularly to age, sex and race.

Economic status of the population.

Relative stability of population, including commuters, seasonal and other transient types.

Climate, including seasonal weather conditions.

Educational, recreational and religious characteristics.

Attitude of the public toward law enforcement problems.

NEWS RELEASE

Crime trend statistics released today by the Massachusetts Crime Reporting Unit, (Massachusetts Department of Public Safety), in its Third Quarterly Crime Index for 1980 (covering January thru September, 1980), indicates that serious crime reported in the Commonwealth increased 1.6% overall, when compared to the same reporting period last year.*

A further analysis of the 1980 (January thru September) crime statistics for the Commonwealth revealed that violent crime increased 18.7% and property crime .3%. The statistical results in the Crime Index report were compiled after analysis of crime reports submitted to the Crime Reporting Unit by 349 local and state law enforcement agencies.*

The first nine months' crime trend showed that a total of 190,195 serious crimes were reported during 1980 as compared to 187,185 serious crimes reported for the same period last year. Of the 190,195 crime index offenses reported to the Crime Reporting Unit, 15,472 or 8.1% were crimes of violence and 174, 723 or 91.9% were property crimes.*

*City of Boston crime statistics were not available for the third quarter due to a review of their reporting system. Comparison figures and percentages are given without the use of Boston statistics for either year in order to avoid errors in trend figures.

The seven serious crimes which make up the crime index for the Commonwealth (excluding Boston) break down into the following percentages (crime trends):

MURDER: +30.9% FORCIBLE RAPE: +23.1% ROBBERY: +19.6%

AGGRAVATED ASSAULT: +18.0 BURGLARY: +7.1%

LARCENY-THEFT: +1.1% MOTOR VEHICLE THEFT: -13.0%

One hundred six murders occurred in the Commonwealth (excluding Boston) during the first nine months of 1980, accounting for .06% of the total crime index. The other six offenses broke down into the following volume and percentages:

CRIME	TOTAL INDEX	% OF TOTAL
FORCIBLE RAPE	788	.4
ROBBERY	4,042	2.1
AGGRAVATED ASSAULT	10,536	5.5
BURGLARY	56,070	29.5
LARCENY-THEFT	90,957	47.8
MOTOR VEHICLE THEFT	27,696	14.6

The five largest cities (excluding Boston) in the state accounted for the following percentages of the total crime index:

CAMBRIDGE	5,834	3.1% of the total crime index
FALL RIVER	4,996	2.6% of the total crime index
NEW BEDFORD	4,694	2.5% of the total crime index
SPRINGFIELD	10,912	5.7% of the total crime index
WORCESTER	9,745	5.1% of the total crime index
ALL OTHER MASSACHUSETTS CONTRIBUTORS	154,014	81.0% of the total crime index

Of the 142 homicides reported during the first nine months (including Boston for the first 6 months), 35 were by handgun, 11 by rifle-shotgun, 51 by knife or cutting instrument, 9 were by hands, fist or feet, 33 by other dangerous weapons, and 3 by unknown weapons. Seventy-six of the one hundred forty-two homicides

occurred during the commission of or were related to a criminal act, 22 were committed during a domestic type situation and 44 were committed in civil situations.

Law enforcement agencies in Massachusetts reported 3,490 offenses of arson for the first nine months of 1980. Arson of mobile property(motor vehicles, trailers, airplanes, boats, etc.) accounted for 1,814 or 52.0% of the arsons reported, structural fires accounted for 1,413 or 40.5%, with the "all other" category(crops, timber, fences, signs, etc.) accounting for the remaining 263 or 7.5%. The total property loss from reported arson was $20,546,706. Massachusetts law enforcement agencies cleared 9.4% of the arsons reported. This information was compiled from reports submitted by an average of 293 agencies over the last nine months which represents 84.0% of our contributors. 31.7% of this average received were active arson reports.

PRELIMINARY CRIME INDEX 1980

George A. Luciano, Secretary
Executive Office of Public Safety

Frank J. Trabucco
Commissioner of Public Safety

Colonel, James T. Canty
Deputy Superintendent

FOR RELEASE
FRIDAY, APRIL 10, 1981

Issued by:
MASSACHUSETTS DEPARTMENT of PUBLIC SAFETY
CRIME REPORTING UNIT
1010 Commonwealth Ave. **Boston, Mass. 02215**

N O T I C E

TO: All Contributors to the UCR Program

FROM: Frank J. Trabucco, Commissioner of Public Safety

SUBJECT: Uniform Crime Reporting Publication Change

1. Due to budgetary constraints, inflationary costs, and difficulties in meeting publication schedules with a small staff, it has become necessary to reduce the publication of our Uniform Crime Reports from quarterly to semi-annually. This means that starting in 1981, we will be publishing two (2) semi-annual reports and one annual report. The first report will contain crime statistics for the first six months of the year, and the second will contain the preliminary annual figures which will be finalized and updated in the annual report.

2. While we regret the necessity to cut back on publication frequency, we assure you that the cooperation you have received from the Uniform Crime Reporting Unit will be maintained, and every effort will be made to insure the quality of the statistics you submit to that unit. As always, no publication will be made to anyone outside the law enforcement community until our contributors have had time to check the publications for accuracy.

3. Your continued cooperation and interest in the Uniform Crime Reporting Program is greatly appreciated.

Frank J. Trabucco
Commissioner

NEWS RELEASE

Crime trend statistics released today by the Massachusetts Crime Reporting Unit, (Massachusetts Department of Public Safety), in its Preliminary Crime Index for 1980 (covering January thru December, 1980), indicates that serious crime reported in the Commonwealth increased only .6% overall, when compared to the same reporting period last year.

A further analysis of the 1980 (January thru December) crime statistics for the Commonwealth revealed that violent crime increased 11.2% and property crime decreased .4%. The statistical results in the Crime Index report were compiled after analysis of crime reports submitted to the Crime Reporting Unit by 349 local and state law enforcement agencies.

The Preliminary Annual Crime Trend Report showed that a total of 328,593 serious crimes were reported during 1980 as compared to 326,486 serious crimes reported for the same period last year. Of the 328,593 crime index offenses reported to the Crime Reporting Unit, 33,040 or 10.1% were crimes of violence and 295,553 or 89.9% were property crimes.

The seven serious crimes which make up the crime index for the Commonwealth break down into the following percentages (crime trends):

MURDER: +6.7% FORCIBLE RAPE: +7.2% ROBBERY: +14.7% BURGLARY: +6.0%
AGGRAVATED ASSAULT: +9.1% LARCENY-THEFT: -.4% MOTOR VEHICLE THEFT: -9.3%

Two hundred twenty two murders occurred in the Commonwealth during the year 1980, accounting for .07% of the total crime index. The other six offenses broke down into the following volume and percentages:

CRIME	TOTAL INDEX	% OF TOTAL
FORCIBLE RAPE	1,490	.5
ROBBERY	13,201	4.0
AGGRAVATED ASSAULT	18,127	5.5
BURGLARY	93,635	28.5
LARCENY-THEFT	144,206	43.9
MOTOR VEHICLE THEFT	57,712	17.6

The six largest cities in the state accounted for the following percentages of the total crime index:

BOSTON	75,755	23.1% of the total crime index
CAMBRIDGE	8,009	2.4% of the total crime index
FALL RIVER	6,805	2.1% of the total crime index
NEW BEDFORD	6,217	1.9% of the total crime index
SPRINGFIELD	14,410	4.4% of the total crime index
WORCESTER	12,978	3.9% of the total crime index
ALL OTHER MASSACHUSETTS CONTRIBUTORS	204,419	62.2% of the total crime index

Law enforcement agencies in Massachusetts reported 4,818 offenses of arson during 1980. Arson of mobile property (motor vehicles, trailers, airplanes, boats, etc.) accounted for 2,527 or 52.4% of the arsons reported, structural fires accounted for 1,964 or 40.8%, with the "all other" category (crops, timber, fences, signs, etc.) accounting for the remaining 327 or 6.8%. The total property loss from reported arson was $23,944,948. This information was compiled from reports submitted by an average of 323 agencies during the past year which represents 92.6% of our contributors.

* END OF RELEASE *

MASSACHUSETTS UNIFORM CRIME REPORTING PROGRAM

STATISTICAL REPORT

JANUARY - DECEMBER 1980 CRIME INDEX

The Massachusetts Uniform Crime Reporting Program is centered around 349 local and state law enforcement agencies who submit monthly reports to the Crime Reporting Unit,, Department of Public Safety.

The data presented in this report are offenses known to law enforcement agencies and represent a portion of those offenses that have actually occurred. Please note that the population for each city and town has been indicated directly beneath each city and town line. An increase in the Uniform Crime Reports may indicate an increase due to improved detecting or reporting of crime, in addition to an actual increase of offenses.

Individuals using these Crime Index tabulations are cautioned against drawing conclusions by making direct comparisons between cities and towns due to the existence of numerous factors which affect the amount and type of crime from place to place. It is important to remember that crime is a social problem and therefore, a concern of the entire community. The efforts of law enforcement personnel are limited to factors within their control.

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

Density and size of the community population and the metropolitan area of which it is a part.

Composition of the population with reference particularly to age, sex and race.

Economic status of the population.

Relative stability of population, including commuters, seasonal and other transient types.

Climate, including seasonal weather conditions.

Educational, recreational and religious characteristics.

Attitude of the public toward law enforcement problems.
